

# A Debut of “Pro-spec 2”

## ATS carbon single clutch

Power Rating (at the wheel)

**400 ps** average

**500 ps** Max

The Prospec2 is equipped with a newly designed clutch cover of higher clamping rate. At the same time, ATS successfully made the pedal effort lighter than stock.

*The Prospec2 promises very comfortable driving with a light pedal effort. A traffic jam is a breeze. You will never go back to a performance clutch with a heavy pedal effort.*

\*Examples\*

Prospec2 for Evo 4-9 CM23H132-16

Clamping force 1,600kg

**Pedal effort 15kg** [stock-16kg, ATS Prospec1 1,600kg-25kg]

Prospec2 for Nissan Z33 HR CN23H1162-16

Clamping force 1,600kg

**Pedal effort 12kg** [stock-13kg, ATS Prospec1 1,600kg-22kg]
