ATS Final Gear for GTR R7A89-10

ATS has released its final gear for GTR with the gear ratio of **3.333**. The gear is designed for a high power Nissan GTR for max top speed. The gear ratio, based on calculation with stock tire size, would achieve 400km/h (249 miles/h) in the 6th gear at around 8,000 rpm .

This gear was used for the Power House AMUSE GTR Phantom for its top speed run sponsored by Option magazine. The Phantom recorded 373.4 km/h .

A set of two ring gears and pinion gears (one for front and the other for rear)

Price \$6,237.00

The price includes air shipping from ATS Japan to the U.S, Australia, New Zealand, and Europe.
