H1: The internal pinion gears / side gears are reinforced by shot peening.											
H2: For US RSX, the type R ring gear bolts are required. Please refer to PPI.											
H3: ATS strongly recommends to use the ATS reinforced ring gear bolts.											
H4: Type R countershaft (23220-PR8-J00 for C30A, 23220-PR8-T00 for C32B) and oil pump shaft 21173-PR8-J00 are included.											
ATS LSD for NSX comes with ATS 4.26 final gear - same gear ratio as the NSX Type R.
